

■ 4 January 1964

Dear Ray:

STATOTHR

As indicated by [] in a telephone conversation on 31 December 1963, we are sending to Mr. [] a letter, a copy of which is enclosed, in which we set forth questions concerning the interconnections between the plotter and the computer.

STATOTHR

STATOTHR

STATOTHR

Note that we are proceeding on the assumption that the dividing line between the [] and the plotter will be at the output of the [] cable in the plotter room. With this arrangement, only [] equipment and no plotter equipment will be located in the computer room and only plotter equipment will be located in the plotter room. We highly recommend this approach. Therefore, we would request that you initiate whatever coordinating action is required with [] through your resident technical representative.

STATOTHR

In addition, note that in our enclosed letter (paragraph 8), we have requested copies of schematic diagrams pertinent to [] output and input amplifiers. Since, quite obviously, you are a good customer of [] and undoubtedly are paying a goodly rental fee, you should be in a strong position to obtain these schematics for us. We would appreciate it if you would assist us in obtaining them.
